

Summer Conservation Work

Western Colorado Conservation Corps

Summer Crew Leader Jobs in Conservation Work in Garfield County

The Crew Leader will be responsible for a crew of six 18-22 year olds from Garfield County. Crews will meet on Mondays at the White River National Forest Rifle Ranger District office and will then drive in an RMYC van to the designated project site for the week. The crew will normally follow a work schedule of four 10 hour days in a row. The crew will normally camp together at or near the project site from Monday-Wednesday night and after work on Thursday will return to the Rifle Ranger District office. The project schedule and camping schedule are subject to change. After all work and clean up has been finished, the crew will typically be off-session and will leave to return home on Thursdays after work. The crew members will be essentially off most Fridays through Sundays. The Crew Leader will have to complete work related to logistics typically between the crew's departure on Thursday afternoons and the start of the next crew week on Monday mornings. This work between crew sessions will include a range of logistics such as crew food and equipment needs as well as conducting check-in calls with WCCC's Field Manager or other designated field support staff. Leaders will have access to the Rifle Ranger District bunkhouse for housing throughout the season between crew sessions at no cost to the Crew Leader. Crew work will be a mix of chainsaw, trail and noxious weed projects.
